Mike Monroney Aeronautical Center

6500 South MacArthur Boulevard
Oklahoma City, OK 73169-6901

Dear IAPFIX and IAP Change Notice File Customers:

In order to eliminate a resource intensive production process that provides information that is also obtainable in other more recent FAA products, the Federal Aviation Administration, Aeronautical Navigation Products will no longer be providing the IAPFIX and IAP Change Notice files after the February 6th, 2014 effective date.

Customers may obtain data similar in content to that contained in the IAPFIX and IAP Change Notice files from the *digital*-Terminal Procedures Publication (*d*-TPP) found on the Aeronautical Navigation Products (AeroNav Products) web site at aeronav.faa.gov. To navigate to the *digital*-Terminal Procedures Publication (*d*-TPP) data, select Digital Products from the list of options on the left. Customers may click on the link for the *d*-TPP and Airport Diagrams under 'Digital Products' on the left or the link for *digital*-Terminal Procedures Publication (*d*-TPP) and Airport Diagrams under 'Applications' at the center of the page to access *d*-TPP data.

Additionally, customers may obtain data through a subscription to the NASR (National Airspace System Resource) subscriber files. The NASR subscriber files are available as a free download from FADDS (Facility Aeronautical Data Distribution System) via the NFDC (National Flight Data Center) web site at nfdc.faa.gov. There is a 'New User Registration' link at the bottom of the page where customers may set up an account.

Internal FAA customers may also access *d*-TPP information via <http://aerochart.faa.gov>.

This change will reduce the cost of maintaining data in a legacy product and allow us to use resources to support new digital aeronautical products for our customers and important FAA Next Generation Air Transportation System (NextGen) initiatives.

If you have any questions, please contact Tiffany Narowski at 301-427-5163 or by e-mail at Tiffany.A.Narowski@faa.gov.

Sincerely,

/original signed/

Abigail Smith
Manager, Aeronautical Navigation Products
